6. Description of content: In the new Ordinance for Enforcement of the Radio Act and Relevant Public Notice, the frequency band used for Tire Pressure Monitoring Systems (TPMS) and Remote Keyless Entry (RKE) systems will be expanded to 433.05 MHz–434.79 MHz. The new Regulation for Radio Equipment and Relevant Public Notice will eliminate the requirements previously imposed on the equipment enclosure.
7. Objective and rationale, including the nature of urgent problems where applicable: Japan will amend the current technical regulations in response to the following situations: <ul style="list-style-type: none">• A frequency band wider than that specified in Japan's current regulations has become the global standard frequency for TPMS and RKE applications.• In major countries, no requirements are imposed on the equipment enclosure for TPMS and RKE.

8. Relevant documents:

The basic law is the Radio Act (1950 Law No.131).
